For the period from January 1, 2015 to present please provide records, studies, reports, statistics, analyses, evaluations, presentations, communications, polls, briefing notes, Advice to the Minister, Question Period Notes, etcetera showing where criminals get their guns and proving the validity of the RCMP statements: (1) *"It is a fact that the majority of gun related crimes in our communities are committed with guns that are domestically sourced."* and (2) *According to the most recent data available from the RCMP's National Weapons Enforcement Support Team, 61 per cent of crime guns in the province were domestically sourced. "And the balance, about 39 per cent, were believed to be smuggled from the United States or elsewhere." The source was not domestic," said Insp. Chris McBryan, the officer in charge of NWest's western region.*

Please provide copies of internal records, reports, communications, presentations, briefing notes, etc about the investigations into this scam. In particular, licensed gun owners, the public and Parliamentarians need to see all records showing how the scammers identify their targets; namely, licensed gun owners whose firearms licenses are coming up for renewal and how the scammers are able to convince licensed gun owners that their firearms licenses are expiring.
