Yes, Mr. Dallas these weapons can kill humans, but they were not specifically designed for this purpose. In Canada, they are for hunting and marksmanship.

GUN SAFES IN CANADA

So what does the law say, exactly? Well, we'll spare you the legalese, and lean instead on the RCMP's definitions provided by the Canadian Firearms Program. According to that resource, non-restricted firearms must either be trigger locked, or locked inside a "cabinet, container, or room that is difficult to break into." Restricted firearms must be trigger locked and locked inside a similarly defined apparatus. By Daniel Fritter, Calibre Magazine - August 28, 2017

GUN INJURIES EXCEED \$622 MILLION IN HOSPITALIZATIONS EACH YEAR: UNIVERSITY OF IOWA COLLEGE OF PUBLIC STUDY

- The study, published in the current issue of the journal "Injury Epidemiology," looked at the National Inpatient Sample — a database that estimates outcomes related to hospital admissions — to analyze hospitalizations due to firearm injuries between 2003 and 2013. Researchers looked only at costs associated with the immediate hospitalization after a gun injury and did not consider associated costs after discharge. In that time period, there were more than 336,000 hospital admissions that were a result of a firearm injury, with handguns accounting for more than 70 percent of the costs for admissions for which the type of firearm was known.

JUSTIN TRUDEAU: 47 CHARACTER REVEALING QUOTES FROM CANADA'S 23RD PRIME MINISTER AND WHAT THEY MEAN FOR YOU By Christopher di Armani

A scathing indictment of Canada's 23rd Prime Minister, Justin Trudeau. A man's actions reveal his true character, that which he attempts to cover with his words. What a man says is often inconsequential. Unlike a his words, his actions do not lie. They tell the true tale of the man. This book examines Trudeau's words, their stark contradiction with his actions and examine what his true character reveals.
