THE WESTERN PRODUCER - CANADA'S DEFENCE OF HUNTING, FISHING, FARMING 'SUBTLE'

Instead of talking about rights, a number of wildlife groups in Canada emphasize history and the economic benefits of traditional rural activities. In other words: a softer sell to politicians and the public. Industry estimates suggest that hunting, fishing and outfitting, including the purchase of boats, rods, guns and related equipment, contribute about \$15.2 billion to Canada's economy annually. THE WASHINGTON POST GETS IT WRONG ON NEW GUN LEGISLATION

To be blunt, Milbank's extreme rhetoric gets it wrong on every front and the bill is nothing as he describes. Among its many provisions, the bill accomplishes several goals that hunters and anglers have been seeking for many years.

- The bill allows states to allocate more funds toward the construction and improvement of regulated shooting facilities so that law-abiding gun owners can take training classes and engage in recreational shooting.
- The bill protects — and provides recourse — for law-abiding gun owners who are unfairly targeted by extreme anti-gun jurisdictions when traveling state-to-state, a protection that already exists under federal law.
- And it lifts the current ban on carrying self-defense firearms on millions of acres of federal land, while easing the regulations on suppressors so that hunters can protect against hearing loss while in the field.

JUSTIN TRUDEAU: 47 CHARACTER REVEALING QUOTES FROM CANADA'S 23RD PRIME MINISTER AND WHAT THEY MEAN FOR YOU By Christopher di Armani

A scathing indictment of Canada's 23rd Prime Minister, Justin Trudeau. A man's actions reveal his true character, that which he attempts to cover with his words. What a man says is often inconsequential. Unlike his words, his actions do not lie. They tell the true tale of the man. This book examines Trudeau's words, their stark contradiction with his actions and examine what his true character reveals.
