

DENNIS YOUNG MOVED AND HOPEFULLY MENDING

By Dennis R. Young – August 24, 2020

On August 2, 2020, Dennis and Hazel Young moved from Airdrie, Alberta into Calgary. Dennis' ongoing medical problems made it impossible for him to take care of Hazel in her 37-year battle with primary Progressive Multiple Sclerosis. We have moved into a first-class basement suite with our daughter Jennifer her husband James and our grandkids MacKenzie, 20 and Jakob, 17. Our new address and phone number are below:

NEW HOME ADDRESS:

**16 QUARRY GARDENS SE
CALGARY, AB
T2C 5H7**

NEW HOME PHONE: 587-623-1008

OLD CELL PHONE: 403-604-0783

MEDICAL UPDATE ON DENNIS

Dennis had a major heart attack on Monday, August 17, 2020 and returned home Thursday afternoon with a brand-new stent that opened his main artery from 90% blocked to 100% clear.

Dennis's second battle with cancer continues. The tumor is located in his left pelvis and is pressing on his spine causing numbness in his pelvic region. Chemotherapy treatment was discontinued a few months back. Eight radiation treatments in May only provided some temporary relief. Blood clots in both legs, pelvis and both lungs are a major concern these days. Pulmonary nodules in the lungs keep growing at a slow pace and are not yet a concern for the oncologists at the Tom Baker Cancer Centre at Foothills Hospital.

Blood clots upended my lymphatic system in both legs. Treatment at the Lymphedema Clinic at the old Holy Cross Hospital has reduced the swelling in my left leg completely and made significant progress at reducing the swelling in my right leg. Walking is difficult and even then, I need a cane to get anywhere. We appreciate all those that continue to send us healing thoughts and prayers.

WEBSITE MANAGEMENT

I have not had the time, energy, or mental concentration to keep my website up to date in the manner you have grown accustomed since 2015. I have been making occasional postings to the [Canadian Firearms Digest](#) and [LinkedIn](#). I have also been posting ATIP responses as they dribble in from the RCMP and other departments. Believe it or not the COVID-19 crisis has slowed down the response times to my *Access to Information Act* requests including the investigations of my complaints underway by the Information Commissioners. **I wish to thank all those that have made donations to keep my website alive. Stay healthy and safe.**
